

Australian Aesthetic Devices presents:

SwiftHR
HAIR REMOVAL

The true meaning of SHR

The Swift HR Diode Laser from Australian Aesthetic Devices with both SHR and HR treatment modes, is specifically designed for rapid laser hair reduction.

With the SHR (Swift Hair Removal) operating at up to 10 pulses per second and a treatment window size of 20 x 10mm, the Swift HR represents one of the fastest laser hair reduction treatment platforms on the market.

Being Australian designed and using high quality Diode arrays manufactured in Germany, as well as the addition of an internal compressor chiller, the Swift HR delivers reliability that meets the needs of even the busiest clinics.

The benefits of Swift HR

- **Large spot size**
- **Fast pulse rate**
- **German diodes**
- **Enhanced cooling**

Swift HR HAIR REMOVAL

Results that speak

Delivering to client expectations is the ultimate goal, so we personally designed equipment that delivers on the promises you make to your clients. Our products create a safe profit-generating income stream for your business with results that will keep clients coming back.

Specifications

Laser Type	Diode Array with Collimator Lens German manufactured	
Wavelength	755nm	808nm
Window Spot Size	10mm x 12mm	10mm x 20mm
Output Energy	Up to 120J/cm ²	Up to 100J/cm ²
Pulse Repetition	1 to 10 Hz	
Tip Cooling	Peltier contact cooling	
System Cooling	Compressor closed circuit water chiller with integrated heat exchanger	
Dimensions	360W x 400D x 1200H	
Power Requirement	240V 50Hz	
Classification	Class 4 Laser Product	
	Used for Cosmetic purposes only	

Industry Experience

With unmatched knowledge & experience in the Aesthetic industry covering Clinical & Practical technology applications as well as marketing & clinic management, Australian Aesthetic Devices can offer you the support you only dreamed about. Make the move into new technology safely & with confidence with the support of Australian Aesthetic Devices.

Dedicated Support

Our dedicated staff provides professional support, which helps to grow your practice and create the edge you need to be profitable in this competitive industry. Delivering a profit generating income stream for your business with results that will keep clients coming back.
